**Family-driven specialized
Autism services**

the way forward:

Who are our clients?

Any child or adolescent who is 21 years of age or younger WHO:

1. Was seen by a licensed psychologist and has an Axis I diagnosis including Autism spectrum.
2. Is eligible for Medical Assistance or is enrolled in Health Choices.
3. Has a current psychological evaluation that recommends BHRS services.

play

Effective treatment is a team-orientated process. You and your child will always have a choice about the services you receive, a voice in the manner in which you receive services, and ownership of the decisions that affect your lives.

Community Alternatives Approach to Treatment

We focus on...

- Enhancing the development of social and communication skills
- Understanding that each family is unique
- Keeping parents and siblings involved throughout treatment
- Intensive interventions with concerning behaviors

Training and Supervision

Our staff...

- Are trained to understand the features of Autism Spectrum Disorders and other Developmental Disabilities.
- Are trained in Functional Behavioral Assessment (FBA) and other features of Applied Behavior Analysis
- Are trained in family dynamics and family collaboration

Specific Services Provided

We provide

- Behavioral consultation and program design through Behavioral Specialist Consultant Services
- Individual and family therapy through Mobile Therapy services.
- Intensive support services through Therapeutic Staff Support services
